# Bulk Products

## Fill Dirt

Sandy fill dirt, also known as 'Standard Top Soil'.

## Enriched Top Soil

Features manufactured soil, consistent ingredients, well-drained, weed-free soil. Resists compaction to maintain percolation and aeration. Rich in organic matter providing natural fertility.

*Ingredients: 3-parts Horticultural Sand (a naturally occurring loamy sand from Big Sandy, TX), 7-parts Vital Earth Composted Peat Replacer*

## Peat Replacer

Complete soil renovator - enhances soil aeration. Provides essential soil nutrients and enhances soil absorbancy.

*Ingredients: 1-part Medium-aged pine bark mulch, 1-part Vital Earth Composted Peat Replacer*

## Compost

100% all-natural ingredients - mechanically composted in a large, rotary tumbler. Homogenized and pasteurized at over 140°F. Non-burning, nutrient-rich, organic plant food.

*Ingredients: Hardwood sawdust, poultry litter, grain by-products, horticultural trace elements*

**WARNING: HOT.** Will burn plants if used alone/straight) Mix into soil with no more than a 50/50 mix

## Garden Mix

Designed for raised bed vegetable gardens and flower beds.

*Ingredients: Aged Pine Bark, Premium Grade Compost, Canadian Peat Moss, Rice Hulls, Horticultural sand, Earth Safe Organic Fertilizer, Dolomitic Lime, Wetting agent, and Vitazyme Biostimulant*

## Hardwood Mulch

Has the appearance of cypress mulch - will not float or wash out. Mats down and blocks out weeds, darkens with age.

*Ingredients: Hardwood primarily from East Texas oak*

## Black Mulch

Black-dyed hardwood mulch - mats down and will not wash away.

## Cedar Mulch

Cedar Mulch is shredded, has a reddish-blond color, and a pleasing aroma. It contains natural occurring cedar oil and therefore decomposes slowly, lasting longer than other mulch materials. A native Texas recycled product,

## - FAQs -

### 1/2 Yard (one tractor scoop) will cover:

54 square feet = 3" deep

81 square feet = 2" deep

162 square feet = 1" deep

### Making a Raised Bed

### Vegetable Garden?

Here's the mix we recommend:

1 part Compost

1/2 part Peat Replacer

1/2 part Peat Moss

\*\*Once soil is placed, cast

Vermiculite out and mix in
