**Once soil is placed, cast

Vermiculite out and mix in

Bulk Products

Fill Dirt

Sandy fill dirt, also known as 'Standard Top Soil'.

Enriched Top Soil

Features manufactured soil, consistent ingredients, well-drained, weed-free soil. Resists compaction to maintain percolation and aeration. Rich in organic matter providing natural fertility.

Ingredients: 3-parts Horticultural Sand (a naturally occurring loamy sand from Big Sandy, TX), 7-parts Vital Earth Composted Peat Replacer

Peat Replacer

Complete soil renovator - enhances soil aeration. Provides essential soil nutrients and enhances soil absorbancy.

Ingredients: 1-part Medium-aged pine bark mulch, 1-part Vital Earth Composted Peat Replacer

Compost

100% all-natural ingredients - mechanically composted in a large, rotary tumbler. Homogenized and pasteurized at over 140°F. Non-burning, nutrient-rich, organic plant food.

Ingredients: Hardwood sawdust, poultry litter, grain by-products, horticultural trace elements

WARNING: HOT. Will burn plants if used alone/straight) Mix into soil with no more than a 50/50 mix

Garden Mix

Designed for raised bed vegetable gardens and flower beds.

Ingredients: Aged Pine Bark, Premium Grade Compost, Canadian Peat Moss, Rice Hulls, Horticultural sand, Earth Safe Organic Fertilizer, Dolomitic Lime, Wetting agent, and Vitazyme Biostimulant

Hardwood Mulch

Has the appearance of cypress mulch.

Ingredients: Hardwood primarily from East Texas oak

Black Mulch

Black-dyed hardwood mulch.

Cedar Mulch

Cedar Mulch is shredded, has a reddish-blond color, and a pleasing aroma. It contains natural occurring cedar oil and therefore decomposes slowly, lasting longer than other mulch materials. A native Texas recycled product,
